

## CLLOUD DIRECT CONNECT

ManagedWay's Cloud Direct Connect service allows you to extend your office or data center's network by connecting you directly to AWS.

### WHAT IS CLOUD DIRECT CONNECT?

Cloud Direct Connect is a network service that provides an alternative to using the Internet to connect your premises to Amazon Web Services (AWS). You can establish private connectivity between AWS and your datacenter, office, or colocation environment. Cloud Direct Connect allows you to access your AWS deployment with significantly greater performance, lower latency, and higher speeds.

### OUR CLOUD DIRECT CONNECT DIFFERENTIATORS

**CONNECT TO AWS AT YOUR LOCATION:** Keep your equipment on site, we will connect you to AWS through your internet connection.

**CONNECT TO AWS FROM OUR DATA CENTER:** Bring your equipment to our Colocation Facility, we can easily connect you directly to AWS.

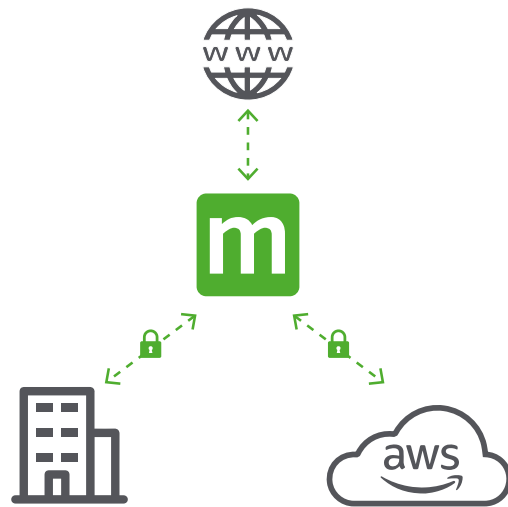

**CONNECT TO ANY AWS ZONE IN NORTH AMERICA:** We have the dedicated network infrastructure to connect you privately, to any AWS zone in North America.

### FEATURES/BENEFITS

- ✓ Fully-Managed
- ✓ Ultra High Speed
- ✓ Consistent Performance
- ✓ Private Connectivity
- ✓ Robust SLA
- ✓ Lower Latency

### MANAGEDWAY'S CLOUD DIRECT CONNECT ADVANTAGE

Our private network connections provide a safer, more consistent network experience than Internet-based connections. Cloud Direct Connect is an essential service for customers who have significant AWS deployments.
